# 36<sup>th</sup> ESVS Annual Meeting 2022

Rome | 20-23 September 2022

An aerial photograph of Rome, Italy, taken at dusk. The Colosseum is the central focus, illuminated with warm lights. The surrounding city is densely packed with buildings, their lights beginning to glow. In the foreground, the interior of a modern glass and steel building is visible, with a complex network of dark structural beams and a grid of glass panels. The sky is a mix of blue and orange, indicating the time is either early morning or late evening.
