FOR VENOUS SPECIALISTS

Welcome

On behalf of the Egyptian Venous Forum board , I am honored to announce the tenth International Congress. For the first time we are organizing the conference in major two cities in Egypt, the Cairo and Zagazig in collaboration with the vascular surgery department annual conference. We tried to invite international guests to share their experience with our professors and colleges and encourage vascular fellows to expose their work through international competitions and join different workshops. In addition, in the congress we try to introduce and discuss the 1st Egyptian clinical guidelines.

Finally, I hope it will be a real mirror of the dedicated work of the board to bring this event to light.
